## College and Career Ready Performance Index

The College and Career Ready Performance Index (CCRPI) is the measure for accountability in the State of Georgia. A school's performance is graded on a scale of 0-100, with the opportunity to earn 10 challenge points. The CCRPI measures student participation and achievement on statewide assessments and other indicators. The State of Georgia, each local school district, and each individual school is held accountable for the academic success of its students. Schools are scored in four areas: Achievement, Progress, Achievement Gap, and Challenge Points.

**Buford Middle School's rating indicates strong growth and achievement. The current **BMS CCRPI score is 94**, which is among the top scores in the state. The State of Georgia average for middle schools is 73.8.**

## College and Career Ready Performance Index

School Climate Rating uses data from student, parent, and school personnel surveys, along with student discipline, and attendance records for students and school personnel. Each school will receive a 1-5 star rating, with five stars representing an excellent school climate, and one star representing a school climate most in need of improvement. **Buford Middle School's current School Climate Rating is five stars.**
